SilverPlus® Liquid
SilverPlus® AloeVera Liquid Mixture
Silverlife® Liquid
Celebrilliance® Capsule

Certificate of health

This is to certify that:

- the products are manufactured in Sweden.
- the Food division of the Environment office in Gothenburg controls the food business operator with regards to Regulation (EC) 852/2004 of the European Parliament and of the Council.
- products from the manufacturer are regarded as fit for human consumption and are freely sold and consumed without restrictions in Sweden.

To whom it may concern

The Food division of the Environment office in Gothenburg issues health certificates for goods manufactured at establishments under its official control. These certificates typically include statements saying that the products fulfill the requirements of the national and the EU legislation and that they are regarded as fit for human consumption and are freely sold and consumed without restrictions in Sweden and other EU countries. Products that fulfill the EU legislation are also freely exported to non-EU countries without restrictions. GMP and HACCP are both systems that aim to ensure the safety of food, chemicals and pharmaceuticals. This certificate is issued by the Food Division in Gothenburg and certifies that the facility is run by HACCP which is a manufacturing standard that meets the GMP standards.

Olga Jakobsson
Food inspector
City of Gothenburg
